

BLOWN AWAY (PC GAME) WALKTHROUGH by Daniel Marschall

Version: 3 February 2022

General information about the score system

There are 3 kinds of scores:

- Points for collecting items or performing actions (e.g. handcuffing a criminal).
- Points for absolving a room or chapter (e.g. when you walk to the door lock in the hospital, you have "absolved" the room and get rewarded). The score may vary on the number of movements you have done in the room.
- Points for solving a puzzle. These points are time-based. If a cheat is applied, you won't get any points.

1. Hospital (40 pts)

Things to collect (0 pts):

- Fuse ("this fuse is good news"): 0 pts

This fuse will affect the thermal maze puzzle

Hospital room (20 pts):

You can wait until the lights are off, but you don't need to. Walk to the control panel to leave the hospital room. You will get 20 points.

Access Panel "Magic square" (time-based 20 pts, with cheats 0 pts):

Any 3x3 magic square (e.g. Saturn seal) will work.

Grid game (30 pts, with cheats 0 pts):

There are three variants of the game, based on your previous actions in the game:

1. If you played the concentration game during the rescue of Robin and have chosen the Joker:
 - You will not see an animation at the beginning
 - Sam says "If you choose wisely, I think the real laugh will be on him" (TY06A44.WAV)
 - In this case, select the Joker and you win the game.

2. If you played the concentration game during the rescue of Robin and have not chosen the Joker:
 - Sam says "Jimmy, he was muttering ,Pick a card, any card.' before he left. Does that help any?" (TY06A43.WAV)
 - You will see a "walking" animation at the beginning and you need to follow this path.
 - You will begin with the card that you have chosen in the concentration game (or if you can't remember, you have to look at the direction of the walking animation begins with)
 - Select the next card which has following attributes:
 - o The number on the card must be the distance away from your current card ("A" is "1").
 - o Move in a direction away from a wall, select a card having the wall suit.

North/Up	=	Club
West/Left	=	Heart
South/Down	=	Spade
East/Right	=	Diamond

3. If you have not played the concentration game yet, or if you are in training mode:
 - Sam says "Start on the tile without a face" (TY06A42.WAV)
 - You will see a "walking" animation at the beginning and you need to follow this path. You only need to remember the first direction of the path (since there are sometimes multiple valid start paths, but only one is allowed).
 - Select the next card which has following attributes:
 - o The number on the card must be the distance away from your current card ("A" is "1").
 - o Move in a direction away from a wall, select a card having the wall suit.

North/Up	=	Club
West/Left	=	Heart
South/Down	=	Spade
East/Right	=	Diamond
 - o After 11 moves, you win the game.
